

KCA Deutag's Company Visit, 4 December 2019

KCA Deutag is one of the world's leading drilling and engineering contractors working onshore and offshore with a high focus on safety, quality, and performance. We were very glad to be informed that KCA Deutag would visit us on 4th December 2019. Our guests from KCA-Deutag Drilling GmbH were Mr. Ard Louis, the Country Manager for Europe and Mr. Holger Egbers, the Project Manager for the Land Division. That was a great opportunity for those seeking positions for internship, writing bachelor/master theses and full job, since,

1. We were to know the company's operational activities in a friendly environment from its top managers. They shared their experience with us, shedding light on our path toward our future professional life.
2. We had the opportunity to talk to the company's top managers and learned about their expectations from possible candidates for their company. The opportunity that was not easy to achieve out of that presentation/visit in/to ITE TU Clausthal.

The students of TU Clausthal coming to that event were very happy to have that opportunity to know the company better. We would like to thank for KCA Deutag to come visiting us. The pictures of that event can be seen in the following.
