

Campuslauf 2016– 12.06.2016

On Wednesday the 15th of June, our chapter once again participated in the annual “Campuslauf” organized by the university. Even though participation in our team was not as huge as in the recent years, around 15 of our students were tough enough to brave the weather and do something for their fitness. Sadly, quite soon after the start of the race, the event was cancelled due to a big thunderstorm. Still, we want to thank all of our fellow competitors for their participation and we hope to bring back the title for the biggest group again next year.
